Research Reports

Electroshock- and pentylenetetrazol-induced seizures in genetically epilepsy-prone rats (GEPRs): differences in threshold and pattern
R.A. Browning, C. Wang, M.L. Lanker and P.C. Jobe (U.S.A.) 1

An evaluation of the anticonvulsant effects of vitamin E
S.L. Levy, W.M. Burnham and P.A. Hwang (Canada) 12

Reduced GABA-mediated chloride flux in entorhinal cortex-kindled rat brains
W.B. Sneddon, W.M. Burnham, S. Prowse, J. Cheng and S.H. Kish (Canada) 18

Evidence for a norepinephrine-dependent brain-stem substrate in the development of kindling antagonism
C.D. Applegate and J.L. Burchfiel (U.S.A.) 23

Effects of the dihydropyridine Ca^{2+} channel antagonist nimodipine on kainic acid-induced limbic seizures
R.P. Paczynski, F.B. Meyer and R.E. Anderson (U.S.A.) 33

Changes in excitability of CA1 pyramidal neurons in slices prepared from $AlCl_3$-treated rabbits
S. Franceschetti, O. Bugiani, F. Panzica, F. Tagliavini and G. Avanzini (Italy) 39

Increased postsynaptic excitability in hippocampal slices from the tottering epileptic mutant mouse
G. Kostopoulos and C. Psarropoulou (Greece) 49

Relationships between MR-imaged total amount of tissue removed, resection scores of specific mediobasal limbic subcompartments and clinical outcome following selective amygdalohippocampectomy
A.M. Siegel, H.G. Wieser, W. Wichmann and G.M. Yasargil (Switzerland) 56

An incident case-referent study of epileptic seizures in adults
L. Forsgren and L. Nyström (Sweden) 66

Short Communication

Nifedipine as an add-on drug in the management of refractory epilepsy
J.W.A.S. Sander and P.C. Trevisol-Bittencourt (U.K.) 82

Announcement 85

Announcement from the Publisher 86

Number 2 — July 1990

Research Reports

Effect of APV and ketamine on epileptiform activity in the CA1 and CA3 regions of the hippocampus
W.-L. Lee and J.J. Hablitz (U.S.A.) 87

Hippocampal epileptiform activity induced by magnesium-free medium: differences between areas CA1 and CA2–3
D.V. Lewis, L.S. Jones and D.D. Mott (U.S.A.) 95

Regional brain [^{3}H]muscimol binding in kindled rat brain: a quantitative autoradiographic examination
J.N. Nobrega, S.J. Kish and W.M. Burnham (Canada) 102

Recurrent spontaneous hippocampal seizures in the rat as a chronic sequela to limbic status epilepticus
E.W. Lothman, E.H. Bertram, J. Kapur and J.L. Stringer (U.S.A.) 110

Properties of the slow inward current induced by pentylenetetrazol in Helix neurons
A. Papp, O. Fehér and L. Erdélyi (Hungary) 119

Multiple-dose pharmacokinetic study with a slow-release carbamazepine preparation
M. Reunanen, E. Heinonen, M. Anttila, P. Järvensivu, H. Lehto and E. Hokkanen (Finland) 126

Differences in side effects between a conventional carbamazepine preparation and a slow-release preparation of carbamazepine
L.I. Persson, E. Ben-Menachem, E. Bengtsson and E. Heinonen (Sweden, Finland) 134

0920-1211/90/$03.50 © 1990 Elsevier Science Publishers B.V. (Biomedical Division)

A study on opioid peptides in CSF of patients with epilepsy
C. Jianguo and X. Xuekong (People's Rep. of China) 141
Possible roles for frequent salivary antiepileptic drug monitoring in the management of epilepsy
G.K. Herkes and M.J. Eadie (Australia) 146
Evolution of neuropsychological changes after partial callosotomy in intractable epilepsy
L. Provinciali, M. Del Pesce, B. Censori, A. Quattrini, A. Paggi, A. Ortenzi, S. Mancini, I. Papo and F. Rychlicki (Italy) 155

Short Communication
Neuropathology of a human hippocampus following long-term treatment with vigabatrin: lack of microvacuoles
R. Agosti, G. Yasargil, M. Egli, H.G. Wieser and O.S. Wiestler (Switzerland) 166

Number 3 — August 1990

Announcement from the Publisher iii

Research Reports
Adenosine involvement in postictal events in amygdala-kindled rats
K. Whitcomb, C.R. Lupica, J.B. Rosen and R.F. Berman (U.S.A.) 171
Use of maximal dentate activation to study the effect of drugs on kindling and kindled responses
J.L. Stringer and E.W. Lothman (U.S.A.) 180
Effects of pentetrazol on neuronal activity and on extracellular calcium concentration in rat hippocampal slices
F.M. Leweke, J. Louvel, G. Rausche and U. Heinemann (F.R.G., France) 187
Effect of intraventricular administration of calcium on the lowering of brain dopamine level in epileptic mice
D. Sutoo, K. Akiyama and H. Takita (Japan) 199
Failure of acute diphenylhydantoin to affect the spontaneous electrical activity of dopamine cells
F. Marrosu, G. Mereu, G. Carcangiu, N. Passino and M. Giagheddu (Italy) 205
NMDA-sensitive L-[^{3}H]glutamate binding in cerebral cortex of El mice
K. Oguro, M. Ito, H. Tsuda, K. Mutoh, H. Shiraishi, Y. Shirasaka and H. Mikawa (Japan) 211
Increased aspartic acid release from the iron-induced epileptogenic focus
N.A. Janjua, A. Mori and M. Hiramatsu (Japan) 215
A randomised double-blind placebo-controlled add-on trial of lamotrigine in patients with severe epilepsy
J.W.A.S. Sander, P.N. Patsalos, J.R. Oxley, M.J. Hamilton and W.C. Yuen (U.K.) 221
Single-dose efficacy evaluation of loreclezole in patients with photosensitive epilepsy
J. Overweg and F. De Beukelaar (The Netherlands, Belgium) 227
Epilepsy in a population of mentally retarded children and adults
L. Forsgren, S.-O. Edvinsson, H.K. Blomquist, J. Heijbel and R. Sidenvall (Sweden) 234

Short Communication
The excitatory amino acid antagonist amino-phosphono-valeric acid (APV) provides protection against penicillin-induced epileptic activity in the rat
C. Loeb, A. Patrone, G. Besio, M. Balestrino and P. Mainardi (Italy) 249
